## ORANGE TO ASK FIRST TAG DAY ROAD ELECTION NETS ONLY \$190

Paved Road Would Link With Port Arthur

ORANGE, Texas, Sept. 21.—The commissioners of Orange county will be asked to call an election sometime within the very near future, or at the earliest practical date, to vote on the proposition of a concrete highway connecting Orange and Port Arthur. A request will be made of the commissioners by a committee from the Chamber of Commerce, according to a decision reached by the directors of that organization in session here Thursday evening.

The commissioners, who recently rejected plans for the construction of a shell road between Orange and Port Arthur on the present basis because of the low market value of concrete at the present time, the road of concrete, will traverse some of the richest agricultural land in this section of the state, and will pass through the Orange oil field.

## RECHECK PHONE INCREASE DATA

Committee Begins Work for Report Wednesday

Work has been started on a recheck of the data submitted by the city commission by the Southwest Bell Telephone company, showing a large increase in the number of calls made in the city, according to a statement made by the committee on Thursday.

This work has been transferred to two members of the utility committee of the Chamber of Commerce for a rate and clerical audit.

Rate increase from \$2.50 to \$2.75 on residence phones and from \$4.50 to \$5 on business phones, first suggested by the Phone company. The action of the city commission will be reported Wednesday, after Thursday night's meeting.

Under the present rates the company is making slightly more than a 5 per cent return on the investment. The rate asked, should it be put into effect, would give an approximate return of 17.9 per cent, plus one cent on this basis.

Under the state law a corporation is allowed 10 per cent return on its investment.

U.S. Operation Through Subsidiaries Illegal, Ruling

TWO ALTERNATIVES

Board to Assume Responsibility for Delay

By United Press.  
WASHINGTON, Sept. 21.—Within a week the shipping board will announce its new program made necessary by Attorney General Daugherty's ruling that the proposed Lasker-Farley plan of indirect government operation through eighteen subsidiary corporations is illegal.

Two Plans Considered.

This statement was on high authority today following a conference of shipping board members. No formal conference will be held until E. P. Farley, the chairman, returns from New York on Monday. In the meantime, however, board members are preparing to put into effect whichever of two plans appears more feasible.

In any event, it was stated, the board will not attempt to sidestep responsibility by delayed action until congress meets.

## CLAIM RADIO CALL IGNORED

Compass Officers Testify in Flotilla Disaster

SAN DIEGO, Cal., Sept. 21.—The three men who attempted to save the destroyer flotilla from disaster on Point Arguello, but whose advice went unheeded, were to testify today before the official board of inquiry.

They are the three radio officers of the compass station on Point Arguello—Salls, Glasscock and Hamilton.

On the fatal night they spent a feverish evening answering calls from numerous ships in the vicinity which wanted to determine their correct position.

When the destroyers called in, the station men are said to have radioed that they had not passed the fleet, however, presumed this advice was erroneous and proceeded on their own reckoning, which indicated the vessels were several miles behind them.

## 'Sheik' In Flashy Male Attire Discovered To Be Negress; Repents in Jail

Revival of the suffrage movement was seen Thursday night when Port Arthur First Sergeant J. J. Duggins foiled an attempt of a woman to wear men's clothes.

Things were dull "across the tracks" for Sergeant Duggins and while on his patrol he was attracted by a flashily dressed person in men's clothes.

The stranger attracted Sergeant's attention and investigation disclosed the "man" to be a woman dressed like the steiner set, Mattie Dix, negro, was arrested as the result of the investigation and was lodged in jail. This is the second case recently to come up, Judge A. W. Dycus sometime ago fining a woman \$5 and costs for wearing knickers, holding that they were men's clothes.

## HOLLAND, MURRAY FAIL TO SHOW UP

Sixteen district court grand jury indictments were returned against Dycus and McBride charged with aggravated assault. It is understood that the I. W. W. complainants are now at the Seamen's Institute at Galveston and they will be brought back here for the case, which has been reset for Oct. 8.

Executive Tightens Against Conference Leaks

'DEADLINE' EXTENDED

Klan Dragon Claims Persecution by Governor

By United Press.  
OKLAHOMA CITY, Sept. 21.—The sixth day of martial law in Oklahoma passed quietly today with an increase of the number of national guardsmen about the capital and tightening up against "leaks" at military headquarters. The "drad-blue" was extended about the conference room where the military tribunal investigating law enforcement conditions of the state were in session.

Witnesses passed into the conference room regularly throughout the day. A woman whose name could not be learned appeared before the tribunal today for the second time.

Klan Dragon to Appear.  
J. K. Wright, county attorney, who admitted membership in the Klan according to testimony taken before the body again, N. C. Jewett, state I. W. W. leader, was scheduled for appearance late today, it was learned.

Additional members of the house of representatives were lining up in favor of a special session of the lower body next Wednesday. More than seventy signatures have been affixed to the proclamation. Representative W. D. McBee, leading the legislature's revolt, declared today.

KLAN HEAD THREATS GOING BEFORE COURTS.

OKLAHOMA CITY, Sept. 21.—Charging that he was being flouted without mercy for political purposes by Governor Walton, N. C. Jewett, grand dragon of the Ku Klux Klan of Oklahoma, declared here today his only recourse was to the courts.

Terming the findings of the military court as "attempts at libel and character assassination," Jewett declared that he would welcome investigation through civil court channels.

Says Walton Seeking Favor.  
Under the present martial law conditions the less said the better. The governor is warring upon the Klan in a supreme effort, stating his political existence in a desperate attempt to regain favor throughout the state," Jewett stated.

"It will all come out in the wash. At present, the governor has the sunlight but whether he will hold it is another question," he concluded.

SAYS APPLICANTS SWAMP TULSA KLAN

TULSA, Okla., Sept. 21.—Officials of the Tulsa Chapter of the Ku Klux Klan today declared they were "swamped" with applications from citizens here for membership in the "invisible empire" since Governor Walton's avowed intention of breaking the organization in Oklahoma.

The attorney reiterated the oft-stated statement that "invisible empire" would help prosecute any Klan men where there was conclusive evidence that they had participated in lynchings.

ATHENS, Sept. 21.—The Italian government officially ordered formal evacuation of the Island of Corfu to start today, according to Rome advices.

## BARE

She Likes Her Ankles That Way; Others Copying Her.

PEARL REGAY

By News NEA Service.  
OKLAHOMA, Nob. Sept. 21.—The actress who started Hollywood in the stockless era, recently had this city sitting up and taking double notice.

Pearl Regay, playing at a local theater, went about the streets sans stockings. Many stared to look, but few thought it a bad idea. The result is that folks now are doing it too.

Comfort and appearance are her reasons for going without stockings. She had practiced this for several years—except for intervals when she feared censorship or was about to walk in the snow.

"I find I am comfortable without stockings," she says. "Stockings are a nuisance."

Miss Regay never wears high shoes.

"In other words," she concludes, "I intend to be comfortable. And I am."

## DEMAND RUM STATUS REMAIN

Bring Pressure to Bear on Government

FEAR 'DEEP WATER'

Semi-Official Overtures Now Start Ruckus

BRUSSELS, Sept. 21.—It was officially confirmed today that Chancellor Stresemann of Germany had made overture proposals for revocation of the Rules to the Belgian minister, Count De La Fite at Berlin.

By United Press.  
BERLIN, Sept. 21.—Socialists today brought all possible pressure to bear on the government not to abandon its decision to cease passive resistance in the Ruhr.

If the face of the nationalistic storm was which the government's action has caused, the socialists apparently fear Chancellor Stresemann might back down and hence were warning the government not to allow itself to be "driven into other dangerous waters."

Rebuttal Of Memorandum.  
The government will not admit that a memorandum was presented to the Belgian minister, but does not deny that the proposals were presented and the United Press correspondent is in a position to affirm that the German proposals made during a conference between Chancellor Stresemann and the minister, were backed up with a "note verbal," or an "aide memoire," or whatever one chooses to call it.

This information was forwarded by the minister, Count De La Fite and is reliably reported ultimately to have reached Premier Poincare of France, who possibly still is considering.

Claim La Capitulation.  
In the meantime the fact has leaked out to the nationalists that abandonment of passive resistance—their call it capitulation, to the annals of the government—has been offered through the Belgian minister on the conditions noted.

It is this information that is responsible for the caustic attacks upon the government instituted by the German nationalist party and the so-called "fatherland" organization.

POINCARÉ GIVEN CREDIT FRENCH

PARIS, Sept. 21.—Premier Poincaré has scored a great victory and Anglo-French solidarity is restored, the Paris morning papers declare, in commenting on the German offer to settle.

A marked change in the attitude of England is noted, following publication of Germany's peace offer, made through the Belgian minister to Berlin.

Other papers declare it was Anglo-French solidarity that caused Germany to capitulate.

## WELLS TRIAL IS STARTED TODAY

Jury in Case Start Hearing Evidence at 2 O'Clock

By United Press.  
BEAUMONT, Texas, Sept. 21.—Hearing of the case against Tom Wells, suspended Port Arthur constable on trial on a charge with murder in office, was started at 2 o'clock this afternoon following the selection of the jury. Judge J. O. Baker presided.

Wells was suspended from office some time ago pending outcome of the trial. Scores of witnesses and those directly concerned in the case thronged through the courtroom this morning during the examination of the prospective jury.

It was understood that the first witness to be called was the discredited constable. Many delegates wanted to see the case.

Previous rumors had been discounted and rumors turned back from the island, which was seized by Italy as a punitive measure against Greece after the slaying of the Italian commissioner at Jannina.

## THE OLD HOME TOWN

## BY STANLEYOUR BOARDING HOUSE

Wobbly was whimpering weakly. Misses White-Face Wild Cow had lost her baby and she missed so hard her voice came down from the mountain meadows like rolls of thunder. It came down the mountains, Misses White-Face Wild Cow, until Nancy and Nick and Mister Gallop heard it and stopped their ponies where they were racing over the plain to see who could go the fastest. "My goodness!" said Mister Gallop. "Something dreadful must be wrong to make the old lady yell so. The last I saw of her she was eating grass as quietly as a spring lamb up there in the mountain meadow with Wobbly Wild Cow beside her. Come, we'll have to hurry as fast as we can to see what the matter is." And Mister Gallop turned his pony in its tracks and shot off toward the mountains like a comet, with the Twins trailing after him like a tail. They climbed the narrow road up and up till at last they saw Misses White-Face Wild Cow standing on a high rocky cliff, her nose stuck up in the air. "What's up?" called Mister Gallop loudly. "For goodness sake, do quit that racket long enough to tell me what's up." "Wobbly's up," said Misses White-Face Wild Cow, looking at him reproachfully. "He's on there on top of that high rocky cliff and he can't get down and I can't get to him. I didn't want him to go, but he said he saw some white stuff that looked like salt and he was going to try to get it. And now he's stuck. Just take a look and see for yourselves." So they craned their necks and there, sure enough, was Wobbly Wild Cow standing on a little narrow shelf that would have made a mountain goat dizzy. Wobbly was whimpering weakly, for being only a week old, he hadn't as much voice as his mammy. Mister Gallop shook his head soberly. "I'm afraid I can't get at him, Misses Cow," he said. "My lassie would reach him but I couldn't get him down. I'm sorry but—"

"Oh, look!" cried Nancy suddenly. There was a great rush of wings and Granddaddy Golden Eagle swooped down on Wobbly and picked him up in his claws before anybody knew what was happening. Then very softly he dropped him beside his mother. (To Be Continued)

## ORANGE IN OIL OR NAVY CRASH

### Star Killed, 30 Hurt When Warship Rans Destroyer

BOSTON, Sept. 21.—One man was killed and 30 injured when the battleship, Arkansas, crashed into the destroyer, MacFarland, while maneuvering off Sandwich at dawn Wednesday, it was learned here when the crippled destroyer was towed into the navy yard.

### 600 Tons Hurt

The dead man was Spencer Williams, known from North Carolina. Stories were told of how members of the MacFarland's crew swam through 30 feet of fuel oil that flooded when a tank in the hold burst under the impact of the crash.

Two men, A. M. Brown and George Stuck, saved the lives of comrades trapped in oil and wreckage when they made fast a line to a man and hauled out those endangered.

### Board to Probe Collision

A board of inquiry today began an investigation of the accident. Both vessels were maneuvering without lights in the semi-darkness and the crew of the destroyer, with exception of those on duty, was asleep below. The Arkansas' sternlight warning whistle woke them a second before the crash, which drove in the MacFarland's bow. The destroyer is being put into dry dock.

Louise Nardin, dean of women of the University of Wisconsin.

The training rules for women students is one of the most interesting group of instructions ever issued to women of college age, who always have been considered able to take care of themselves.

The booklet was written by the dean with inspiration from her own college experiences and information gained by her in the many years of work she has had directing the moral, intellectual and physical well-being of almost 100,000 young women, some of whom are now among the most prominent and well known in the feminine business world.

A glimpse between the covers is

One finds that a woman who is loyal to her school is thoughtful and staunch in her zeal to make the right things prevail, loyal to others, to herself and careful of every word in her obligations.

The right living code refuses to associate with men who have been drinking. She gets at least eight consecutive hours of sleep every night, starting not later than 11 p. m., and dines only one cup of coffee or tea a day. She must not partake of sweetmeats between meals but she may quench her hunger and thirst by eating fruit, milk, soup, graham and white crackers, bread

and butter, plain ice cream and less. The rule book for incoming freshmen women is the outcome of strong discussions in the state on alleged indiscretions and intemperance on the part of students of the university. Unable to combat the situation by means of laws and rules, university authorities finally decided to appeal to the better senses of the incoming women who are entering the university with the restraint of home life still in them.

The question of whether or not they will succeed in their efforts is the subject of much discussion in middle western circles of educational and civic life.

## Ernest Torrence, Guide for "Covered Wagon" Caravan Literally Smashed Way Into the Movies

Special to The News. LOS ANGELES, Sept. 22.—If you saw "The Covered Wagon" at the Elks theater you were no doubt impressed with the work of Ernest Torrence, the guide for the wagon caravan.

Torrence is a comparatively new but potent name in the film world, but has been in pictures long enough to prove that his phenomenal success is no mere accident. He's companion is a wide enough range of roles to demonstrate that he is a native versatility.

His studio history shows that he's not going to be shoved around as an acquiescent pawn by producers and directors. Probably more than any of the near great in pictures, Torrence has displayed a vigorous, resilient mind not to be swayed from its goal.

That goal, that ambition, negatively expressed, is to keep clear of being tagged and used as a "heavy" because his heavy roles have been rich to the verge of genius, or of being constantly cast as a comedian because in this field he has shown equal facility.

This is an imminent danger of limitation for Torrence because in each of half a dozen splendid characterizations he has in turn seemed to catalogue himself as precisely the man for the work. And in Hollywood when you do a thing well, you are in peril of having to do that thing forever or until your vogue wanes.

This tall, genial, sunny 34-year-old quality of courage which has kept him clear of such movie backwash and stagnation. And it will be interesting to watch his promising career because he himself is so definitely responsible for it, despite his status as an "employee of Famous Players-Lasky."

Having made his comedy debut as "Cousin Ebert" in Harry Leon Wilson's satire, "Ruggles of Red Gap," a James Cruze production for Lasky, Torrence is now in New York enacting the part of a country preacher with Glenn Hunter in "West of the Water Tower."

These representations, each unlike anything he's done before, follow his portrayal of the king of beggars in "The Hunchback of Notre Dame," an Elks Theatre production, "Broken Butte," which in turn seemed to demonstrate his role in "Tollable David" and the masterly handling of the scout in "The Covered Wagon."

It was his inimitable villainy in "Tollable David" and "Broken Butte" that threatened to tie him down to heavies. A less determined actor would have succumbed.

Torrence is an actor. An artist. One can say those things of him after seeing him on and off the stage without any mental reservations. For over 20 years he's been a figure on the legitimate English and American stage. 10 of those years a comedian in New York.

In coming to the screen, literally smashing his way in, he disregarded the advice of all his professional friends who made lamentable prophecies. They said he was too tall. They said he had no screen personality. They did everything to show him away. But disregarding advice, refusing to recognize obstacles, once he has arrived at an intelligent conclusion, is the best thing Ernest Torrence does. And that's why the purists of the system haven't been able to pigeonhole him with a tag in the movies.

## NEEDLE IN HAYSTACK? NO; A MAMMOTH STILL

STURGEON RAY, Wis., Sept. 21.—Door county law enforcement officers can well laugh at the proverbial expression "looking for a needle in a haystack." Sheriff Osmond and Det. Attorney Stapleton, burrowing in a haystack on the farm of Frank Heiden, a former Milwaukee man, discovered a school house one of the most completely equipped stills yet found in this part of the state.

The place is said to have contained cooking vats, a revolving churn and water tanks supplied by pipe line attached to a windmill. Heiden was arrested.

## FERGUSON BACKS WALTON'S STAND

Offers Benefit of His Mistake in Oklahoma Row

TEMPLE, Texas, Sept. 21.—Former Governor James E. Ferguson today was on record as being squarely behind Governor J. C. Walton of Oklahoma in his fight against the Ku Klux Klan.

In a letter to the Oklahoma executive made public late yesterday Ferguson wrote:

"I want to commend your stand against the invidious Ku Klux Klan. By all means let me urge you to stand firm in your announced determination to prevent a meeting of the legislature."

"Of course you have read that a fellow feeling makes us wondrous kind. I know the principle applies with particular force to an ex-governor when he sees a real governor traveling the thorny road he has traveled."

"Let me give you the benefit of my mistake and urge you to beware of any comforters who might bring influence to bear upon you to let the legislature meet."

"I had twenty lines in the Texas legislature to vote for my impeachment after they had promised me their support if I would call the legislature."

# To Try Auto Race Program Sunday, Gulfies Meet Magnolia

## Three Fast Cars to Be Added to List of Cars to Race Sunday

Despite inclement weather that has frowned on holding the auto races at the East Texas Speedway, the management plans to run the same card again Sunday that was on the chart for last week when rain interfered. In addition to the program outlined for last week's competition, three more cars have signed for the run and some added money will tend to make competition all the more keen.

P. P. Broussard was in town today and made a trip of inspection over the road preparatory to officially declaring the races for Sunday on again. The first heat will be run promptly at 2:30 o'clock Sunday afternoon.

The three late entrants in the race have been shipped from Houston and are reported to have turned things on in their training spins for Sunday's program.

Among the cars which will take the starter's flag in Sunday's schedule are the Mercedes Special, the Olds Special and Olds No. 7. These three cars are Houston machines and are coming with a powerful reputation to the local race.

A Studebaker entry from Galveston has also entered as have the Mercedes, Orange, Durant Special from Beaumont and several Ford entries from both Port Arthur and Beaumont.

The distances will be at 12 and 18 miles, the winning drivers competing for a slice of the gate receipt money. Weather permitting a huge crowd is expected to attend the races as much interest had been aroused by the early manifest by the drivers of the different gas chariots.

St.), Glass Creek, Harrisburg, Houston (Central H. St.), Houston (Houston Heights Senior high school), La Porte, Orange, Port Arthur, Rockwall, Santa Lake, Texas City, West Columbia.

The Port Arthur boxer started out strong and kept Reddy on the defensive and in his shell for all but two rounds when Reddy managed to take them by slight change.

Two of the ten rounds were even but went to Reddy and the six remaining went to Garrett.

YANKEES CINCH LEAGUE TITLE

New York Wins American Loop Championship Again

NEW YORK, Sept. 21.—By leading the Yankees to a 10-1 victory yesterday afternoon the New York Yankees, who had won the American league championship and placed the impossibility of over-taking them up by the Cleveland Indians. Should New York drop all her remaining games and the Indians win the remaining four games, the Yankees would still be one full game in the lead.

Sam Jones checked in his 20th victory for the Yankees in yesterday's defeat of the Indians.

## WILLS TO FIGHT WAY TO TITLE BOUT

By HENRY L. FARRELL  
United Press Staff Correspondent.

NEW YORK, Sept. 21.—After having tried all the wrong ways in the book, Harry Wills, the negro freight wrestler, is going about the modern and approved method of making a name at the serious heavyweight crown.

Wills, challenges, injunctions and threats, having failed to get him into the ring with Jack Dempsey, Wills has decided to step out and fight himself into a position where he will have to be considered.

Until very recently Wills took the position that he was established as the logical contender for the championship and that he did not have to trace his steps back over the road of setups to prove his right for a fight with Dempsey.

Announcement was made, however, today that the black fighter is going to change his plans and is going to devote the winter season to the job of boxing over all the trial horses that were used by Louis Armstrong Firpo in his campaign. The idea is to do better than Firpo did on the same pushovers.

Wills has been matched to meet Homer Smith at the Little Queensboro C&G here on September 27. Smith is the one who, says a Texan, is to go the rounds by staying ten rounds with Firpo when the South American was in the process of the build up. Plans are now being made for a trip to the Pacific coast where Wills will try to knock off all the heavyweights in his path.

The big negro fighter may get some place now but he is starting rather late. Had he taken the counsel of friends and done the same thing two years ago he surely would have had a fight with Dempsey long ago and he might have been the heavyweight champion.

Wills is not as good as he was two years ago. He is too well along in years to remain idle for a year and retain his form and even in his last bouts more than a year ago he showed signs of slipping.

REACH SEMI SET IN GOLF MATCH

West Has But One Hope of Copping Titular Honor

FLOSSMOOR COUNTRY CLUB, CHICAGO, Sept. 21.—On the slender frame of Robert A. Gardner, Chicago, rested the only hope of the west to day to take the national amateur golf championship away from the east.

Gardner, a former title holder, was paired with Jesse Swenson, of New York, present champion, in the semi-final round of the national amateur golf tournament here. Two other westerners met in the other match. They were Francis Ombert, Boston, and Max Marston, Philadelphia.

A chilly wind blew drizzling rain over the course as the players started this morning. Despite the intermittent showers, which have continued since the match started, the greens were in good condition.

Welter Champ Beats Down Texan in Iowa

DAVENPORT, Ia., Sept. 21.—Iowa fans had their first glimpse of Mickey Walker, welterweight champion of the world here last night when the New Jersey Irishman met Bobby Green, of San Antonio, Texas, in what was scheduled to be a ten round bout.

After toying with his foe until he took a left and right that shook him to his heels in the fourth, Walker settled down to business and beat his opponent into submission.

Green took a drubbing, coming and being knocked out by Walker in the fourth round. Walker's opponent was knocked out by a single blow to the head in the eighth to save him from further punishment.

## Betty Brown's Recipes

Betty Brown was entertaining. The event was to be a dinner dance. Betty, being a debutante, just blossomed, wanted to have everything tasty and if possible a little different.

And this is what she served: Lobsters a la king, tiny potato balls fried and rolled in minced parsley asparagus braised and tied with pimento ribbon; rose pearls, salad and frozen pudding.

The lobster was served in crustadees of bread. These crustadees are made by cutting stale wheat bread in two-inch slices, the slices then cut into diamonds or circles. The center is removed and the shapes either fried in deep fat or brushed with melted butter and browned in the oven. When filled with the lobster and fresh mushrooms they are heavenly.

The rose pearls are cooked in a sirup colored red with cranberries, and are served with a toasted marshmallow on top of each.

The salad was one of fruit molded in gelatin. So successful was Betty she entertained shortly after at a luncheon and there were some who forgot themselves enough to actually mention the food.

Here is the menu:

Hors d'Oeuvres

Cream of Pumpkin Soup

Braised Sweetbread in Nest of Julienne Potatoes

Creamed Mushrooms in Spinach Ring

Orange Ice in Purple Grape Juice

Hot Fruit Salad

Snowballs in Nest of Pink Spun Sugar

Iced Chocolate with Whipped Cream

Hors d'Oeuvres

On a toasted split biscuit place smoked salmon, with an anchovy laid across the top and around the edge to form a border, sprinkle chopped green olive.

Cream of Pumpkin Soup

Color soup stock with carrot juice then thicken as for cream soup. See

sun delicately, and serve each portion with a butter wafer piled high with whipped cream, on which is speckled finely chopped parsley and paprika, the cream piped into a pointed round shape so that it looks like a strawberry floating on a creamy yellow sea.

Braised Sweetbread

After preparing the sweetbread put them in a pan and raise in soup stock, butter, and whites of eggs. Sprinkle with paprika, season to taste. Garnish with cooked carrots, cut in slices, a hole pierced in the center of each slice, then a bunch of parsley drawn through to form a rose on each side. Serve in a nest of Julienne (shoe-string) potatoes, fried in a basket made for the purpose.

Fruit Salad

This is molded in a fancy mold, and when turned out makes a beautiful looking salad. Quartered yellow peaches, darkened fresh cherries, pieces of grapefruit, and pieces of pineapple. Over these pour gelatin softened with the heated juices of the fruit. The fruits should be arranged in the points of the mold to bring out color contrasts. Serve with this dressing.

Dressing

One tablespoon butter, one-half cup sugar, yolks of three eggs, rind of one lemon and one orange. Beat these ingredients till they thicken slightly, and when cool add one-half pint whipped cream. Chop a bunch of parsley very fine and press through a sieve, and add the juice to the dressing to give it a delicate green tint.

Snowballs

These are made of angel food cut into small balls, each ball frosted and then rolled in coconut and piled in a nest of pale pink spun sugar.

The dessert snowballs were carried in on a silver tray, the handles decorated with colonial bouquets.

## QUINCES MAKE DIVINE SAUCE

### And the Honey Rivals That Of Bees

Perhaps you have a quince bush in your back yard. If so, you are lucky for quinces are used for all sorts of delicious sweets. Canned they make quite as good salads as pineapples or pears. Many people like them for "sauce".

And quince honey rivals the real product and makes the bees look to their laurels.

Quince chips are a homely sweetmeat that were much favored in the "Mid-Victorian" period. But quinces are not a delicately flavored fruit and require some care in working up.

Pare and core quince. Grate or put through the fine knife of the food chopper. To three cups of grated quince add one cup of water and cook until tender. Add four cups of granulated sugar, and cook 15 minutes. Pour into jars and seal while hot.

Six pounds quinces, 10 cups sugar, 1-3 pound crystallized ginger, 3 lemons.

Pare and cut quinces in very thin slices. Wash lemons and cut in very thin slices. Remove seeds and as much of the skin-like interstices as possible. Cut ginger in paper-thin slices. Cover quince slices with water and cook until water is evaporated. Add lemons, sugar and ginger and cook until thick. Pour into jelly glasses and seal with paraffin when cold.

Quince Marmalade

Three pounds quinces, 1-2 pounds apples, 2 cups sweet cider, sugar.

Pare quarter and core apples and quinces. Put in a baking dish and add cider. Cover and bake in a slow oven until tender. Add more water as the cider thickens and is absorbed. The mixture should be solid but there should always be enough liquid to prevent burning until tender. Measure fruit and add one and one-half cups sugar to each cup of fruit. Cook, stirring constantly until thick and jelly-like. Pour into sterilized jelly glasses and cover with paraffin when cold.

Canned Quinces

Wash fruit. Dip in boiling water for five minutes. Dip in cold water and drain. Pare, quarter and core. Pack in sterilized jars, adjust rubber, pour over medium thin syrup, half

seal and process 40 minutes. Finish sealing and cool quickly. If the quinces are not too large cut in halves and remove cores. Halves are nicer for salads than quarters.

Medium thin syrup is made by boiling three parts of sugar with two parts of water for five minutes. (Copyright, 1923, NEA Service, Inc.)

## THROWN FROM MOTOR CAR TWICE IN HOUR

MOSCOW, Idaho, Sept. 21.—Being thrown through the windshield of two different automobiles within an hour was the distressing experience of Mrs. Thomas Balderson near here.

The first accident occurred when the car in which she was riding was forced into a stubby by another car which crowded it from the road.

The second accident occurred on the way to the hospital in a borrowed car. This car collided with another and Mrs. Balderson again was thrown through the plate glass.

## GRASSHOPPERS EAT SALESMAN'S WALLET

MT. PLEASANT, Kan., Sept. 21.—"Mac" McCreary, traveling salesman, was told that the grasshoppers were eating up the alfalfa between Lincoln and this city. He saw no locusts, but believed somebody had been "stringing" him.

A couple of hours later he missed his pocketbook. He happened to think that the horse might have fallen from his pocket, so he drove back. Sure enough there was the pocketbook near the edge of the field, and "Mac" found that the grasshopper story was only too true.

During the few hours the pocketbook had been in the field the hoppers had eaten away the leather all around the edges and were just getting busy on the contents.

## GIRL DEFIES DANGER TO SWIM SOUND

SEA CLIFF, N. Y., Sept. 21.—To disprove the assertion of a lifeguard that "nobody could do it," Virginia Schaffy, 19 years old, leaped into Long Island sound and, after swimming six hours, landed on the opposite beach, 12 miles away, the only person ever known to have accomplished the feat.

The record-breaking swim began at 10:30 a. m. and ended at 4:30 p. m. when she arrived, exhausted, on the shore at Rye. Refreshed, she was taken to her home in a powerboat with nothing more than the loss of nine pounds for her daring.

## MEDIEVAL NOBLES LICKED THEIR PLATES

MONTREAL, Sept. 21.—The subject of an interesting lecture delivered recently at McGill university, Montreal, by Professor Waugh, noble families in the middle ages, he asserted, shared common plates and cups, used fingers instead of forks, licked their plates, wiped their teeth on the tablecloth and scrambled for the largest portion.

The art of cooking in the middle ages, flourished, however, cooks excelling at artistic and rich confectionery.

## Go East, Young Man; Raise Bees in N. Y.

NEW YORK, Sept. 21.—A \$7,000,000 project, expected to transform 250,000 acres of undeveloped land on Long Island into one of the greatest sugarbeet districts in the world, was disclosed Saturday by Kurt Grunwald, consulting agricultural engineer, who has made a survey of the situation for the Long Island railroad.

Under proper cultivation, Mr. Grunwald said, sugarbeet cultivation on Long Island will produce beets superior to those of the west and Europe. Experiments in beet sugar cultivation have been carried on at the Long Island agricultural station for about 10 years.

The project will bring about the colonization of a large part of the undeveloped lands of Long Island. Mr. Grunwald said the new era to the farmers who will cultivate the beets are expected to come from abroad. Incorporation papers were filed a week ago for a company to be known as the Great Eastern Sugar corporation.

Excursion is planned to Legion's meeting

DENISON, Texas, Sept. 21.—Z. C. Christian, executive committee member for the fourth district of Texas, American Legion, attended a meeting of executive committee members in Dallas at which plans were formulated for advertising the Legion excursion to the national convention in San Francisco.

According to Mr. Christian, it is hoped to carry the "Old Gray Mare" of Brownwood and a Texas Longhorn steer from Lubbock.

Special rates have been arranged on the excursion for Legion members and their widows.

## SIX MEN ATTACKED BY AN EIGHT-FOOT SHARK

LOS ANGELES, Sept. 21.—Frenziedly charging six men working upon a plank only three inches above the surface of the water, at the plant of the Bethlehem Shipbuilding corporation, Terminal Island, Los Angeles harbor, a man-eating shark eight feet long was killed by Jack Withers and Harry Martin after a 20-minute battle.

Four times the monster raised his head above the water and attempted to drag the men from their precarious foothold. Each time Withers and Martin drove it off with terrific blows delivered at its head with iron pipes. At the fifth attack, a sharp steel bar was driven far into its brain, and the vanquished terror of the deep was dragged onto land for measurement.

Though eight feet long, it is only half grown, experts declared. It is thought to be from the school of sharks which has been sighted off Catalina often recently.

Many copper mines in Mexico are timbered with rosewood, and mahogany is used for locomotive fuel.

# Sister Mary's Kitchen

**VEGETABLE SALADS**  
Vegetable salads are quite appropriate for the fall. These vegetables are used in a jellied salad or merely shredded and used in combination with a simple French dressing.

**Combination Salad.**  
Two cups minced cabbage, 1/2 cup minced celery, 1/2 cup minced carrots, 2 sweet green peppers, 3 tablespoons sugar, 1 cup hot vinegar, 1 teaspoon salt, 1/4 teaspoon pepper, 3 tablespoons oil.

Put vegetables in a mixing bowl. Season with salt, pepper and sugar and pour over vinegar brought to the boiling point. Let stand until cool and stir in oil. Serve with or without lettuce.

The vegetables should be cut in very fine dice of uniform size.

**Carrot Salad.**  
One cup grated carrot, 1/2 lemon, 1/2 teaspoon salt, 1 teaspoon sugar, 1 cup whipping cream, paprika, lettuce. Grate rind from lemon and squeeze out juice. Add salt, sugar, grated carrot and juice to grated carrots. Whip cream until stiff and fold in carrot mixture. Serve on lettuce and sprinkle with paprika.

**Mixed Salad.**  
Two tablespoons granulated gelatin, 1 cup shredded cabbage, 1 cup diced sour apples, 1/2 cup diced celery, 1/2 cup lemon juice, 1/2 cup sugar, 6 tablespoons lemon juice, 1/2 cup cold water, 2 cups boiling water, 1/2 teaspoon salt, 1/8 teaspoon pepper, paprika, lettuce mayonnaise.

Soften gelatin in cold water. Add boiling water and stir until dissolved. Let stand until beginning to jelly. Add lemon juice, shredded cabbage, apples and celery with sugar, salt and pepper. Add nuts and stir well. Fold into jelly and turn into a mold. Let stand on ice to chill and become firm. Serve on lettuce with mayonnaise and a dash of paprika.

**Golden Salad.**  
One cup finely sliced carrots, 1 cup grated apple, 2 tablespoons lemon juice, 1 tablespoon sugar, 1 egg white, 1/4 teaspoon salt, 1 cup whipping cream, 2 tablespoons granulated gelatin, 1/4 cup cold water, 1 cup boiling water, lettuce mayonnaise.

Let a box of cold water with slices of tender carrots. Pour in a little gelatin softened in the cold water and dissolved in boiling water. Put a smaller bowl inside the large one and let stand until the jelly is firm. Pour boiling water in the bowl and it will slip out of the jelly without disturbing the form. Beat the white of an egg until stiff and fold with sugar and salt. Fold in grated apple. Add lemon juice to remaining gelatin. When gelatin begins to set fold in egg mixture and whipped cream. Turn into carrot mold and put on ice to chill and become firm. Serve on lettuce with mayonnaise.

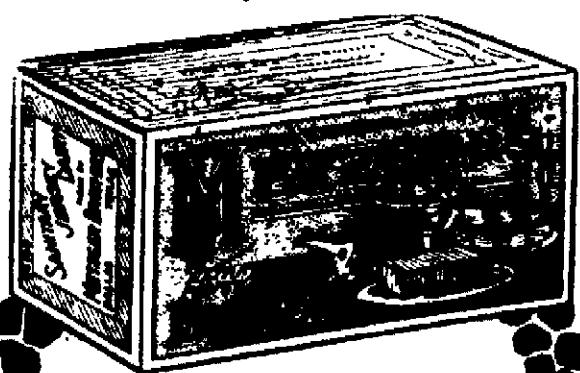

**SIMPLE CAKES**  
These simple cake recipes may prove a boon to the woman who is busy with canning and picking and preserving.

A cream cake that requires no long takes time and effort to bake and during the canning season most housekeepers need most of their time and effort for the extra work of canning.

Simple unfrosted cakes are most to serve with fresh fruits anyway.

There is no doubt but that pastry flour makes tenderer, lighter cakes than ordinary bread flour when handled by the inexperienced baker. Pastry flour is made from winter wheat and is "milled" to a greater

For making salad dressings as in all your cooking, for creaming coffee, fruits and cereals, wherever milk is needed in the home—use Carnation. It is pure milk "from contented cows." About 60% of the water is removed by evaporation. The milk is then hermetically sealed and sterilized. Your grocer is the Carnation Milkman—order from him today.

## Delicious Plum Sweets

Our grandmothers never failed to have some plum conserve on their preserve shelves and this old-time sweet surely was delicious.

Nowadays most housekeepers have fresh fruits of almost all varieties at their command during the entire year. But fresh fruits out of season are expensive and increase the food bill more or less noticeably. Fresh fruit certainly, but more for variety and change and apples for daily food with canned fruits and sweets for desserts.

And speaking of preserves, if one's family are not satisfied with a sweet of warm biscuits and preserves but insist on a regular dessert, why make quantities of extra sweet canned things? But if the family does like warm biscuits and preserves, it saves many a dessert on a busy day.

Try this plum conserve with warm home-made rolls instead of pie.

**Plum Conserve**  
Five pounds plums, 1/2 cup hot water, 1 cup seeded raisins, 1 cup nut meats, 3 pounds sugar.

Wash plums and remove stones. Put fruit, raisins, hot water and sugar in preserving kettle. Bring slowly to the boiling point and simmer until plums are soft. Add nuts and cook ten minutes longer. Pour into sterilized jars and seal.

Plums have a rare flavor not found in other fruits. Green gages, yellow plums, damson or any sweet variety are used.

**Plum and Peach Conserve**  
Four pounds peaches, 4 pounds of plums, 1 pound raisins, 4 pounds of sugar, 1/2 cup peach kernels, 2 cups water.

Scald fruit and slip off skins. Remove stones and cook in the water until tender. Rub through a colander. Crack enough peach stones to make 1/2 cup kernels. Pour boiling water over kernels and let stand until the skins slip off. Put through food chopper with raisins. Put fruit pulp, sugar, raisins and "nuts" in a preserving kettle and cook until thick. Pour into sterilized jars and seal.

**Plum Sweetmeats**  
Damson plums, cinnamon, sugar. Scald plums and slip off skins. Remove stones. Put in preserving ke-

tle and heat very slowly, drawing out the juice. Simmer gently in their own juice until tender. Rub through a sieve. Add 3/4 cup sugar and 1/2 teaspoon cinnamon. To each cup of fruit. Cook until thick and pour into sterilized glasses and seal.

**Barbered Plums**  
Nine pounds blue plums, 6 pounds sugar, 2 quarts vinegar, 2 tablespoons cinnamon. Wash and dry plums. Boil vinegar, sugar and spice for five minutes and pour over plums. Let stand 24 hours and drain. Heat liquor to the boiling point and pour over fruit. In this three more mornings. The last morning cook fruit and juice for 20 minutes. It takes five mornings to make this preserve.
